**The Technology
Location Greifswald**

The Mission Statement of Greifswald

*Die Universitäts- und
Hansestadt Greifswald
und ihr Umland sollen
sich zu einem lebendigen,
innovationsorientierten,
international
wettbewerbsfähigen
Wirtschafts-, Forschungs-
und Bildungsstandort
entwickeln.*

„The University and
Hanseatic City of
Greifswald and its
surrounding countryside
should be developed to
a lively, innovation –
oriented and a
competitive economical,
research and
educational location in
the international
market.“

Some figures about Greifswald:

- about 60.000 inhabitants and a town with county rights
- 12.000 students in 50 different subjects e.g. theology, arts, law, economics, sciences and medicine
- home to 3163 companies with about 23.000 employees subject to social insurance
- lowest unemployment rate in the region (11%)
- above-average purchasing power in the state

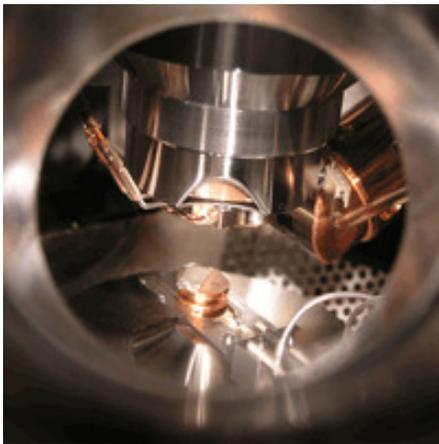

Some figures about Greifswald:

- internationally competitive location for the economy, research and education
- a small-business friendly atmosphere for technology, innovations and services
- strong advantages through partnership between science and economy
- Award „upwardly mobile region of the year“
- highest rate of high qualified employees in future-oriented fields
